

MARTIN GADEA

Full Stack Developer | Applied AI, RAG & Automation

Argentina · Remote · martiingadeea1996@gmail.com

[LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL PROFILE

Full Stack Developer with more than five years of experience building web and mobile applications. Specialized in frontend development with React, TypeScript, Next.js, and React Native; backend development with Node.js, Express, Python, FastAPI, and Remix; and API and architecture design using PostgreSQL, Supabase, MongoDB, SQLite, Prisma, and Sequelize. Experience in applied artificial intelligence using RAG, embeddings, and LLMs, integrating Pinecone, Qdrant, and Supabase Vector Store with LangChain, LangGraph, and OpenAI models. Background in LegalTech, SportsTech, and PropTech products, technical leadership, workflow automation with n8n, Docker, CI/CD, and AWS services.

PROFESSIONAL EXPERIENCE

ARKIA / ACTIVO DIGITAL | Tech Lead

August 2025 - March 2026 | Remote

Technologies: n8n, RAG, Python, Node.js, React, TypeScript, Supabase, embeddings, OpenAI

- Led the technical development of a PropTech platform for managing large-scale real estate assets, with a focus on European environmental regulations.
- Designed and integrated AI agents and RAG workflows to support real estate market behavior forecasting and asset portfolio analysis.
- Managed and processed building documentation, certificates, and environmental standards, including environmental impact and carbon footprint data.
- Developed decision-support tools for financial analysis and automated workflows for real estate asset management.

DAIOFF | Full Stack Developer

June 2023 - February 2026 | Remote

Technologies: React Native, Expo, Remix, Prisma, PostgreSQL, Node.js, Express, TypeScript, Python, FastAPI, LangGraph, OpenAI, Qdrant, Supabase, n8n, Docker, GitHub Actions

- Developed the WeMatch mobile application with React Native and Expo, covering bookings, e-commerce, community features, chat, tournaments, leagues, training, wallet, payments, and matchmaking.
- Contributed to the WeMatch web ecosystem, including the club management system, admin panel, backend, database, role-based authentication, inventory, catalog, promotions, sales analytics, and delivery automation.
- Developed workflows and APIs for a LegalTech platform for case, audit, document, task, and legal assistant management using Remix, Prisma, and PostgreSQL.
- Implemented and enhanced a legal RAG service using Python, FastAPI, LangGraph, OpenAI embeddings, and Qdrant.
- Contributed to Jarvis AI and integrations with OpenAI, Stripe, Expo EAS, Docker, Fly.io, and GitHub Actions.

TECHNICAL SKILLS

Frontend: React, Next.js, Remix, TypeScript, JavaScript, React Router, Redux, HTML, CSS, Tailwind CSS, Material UI, Bootstrap, Responsive Design.

Backend & APIs: Node.js, Express, Python, FastAPI, REST APIs, Prisma, Sequelize.

Databases: PostgreSQL, Supabase, MongoDB, SQLite.

Applied AI: RAG, embeddings, LLMs, OpenAI API, Prompt Engineering, LangChain, LangGraph, Pinecone, Qdrant, Supabase Vector Store.

Mobile: React Native, Expo, Expo EAS.

Automation & DevOps: n8n, Docker, CI/CD, Git, GitHub Actions, Fly.io, AWS EC2, S3, Lambda Functions, Postman.

Methodologies: Scrum and Agile methodologies.

PREVIOUS EXPERIENCE

GRAVITAD | Frontend Developer

December 2022 - June 2023 | Remote

Technologies: React, TypeScript

- Developed the frontend of a cryptocurrency wallet using React and TypeScript.
- Built components and responsive interfaces and integrated APIs to retrieve and manage application data.

PACKAR | Frontend Developer

February 2021 - June 2022 | Remote

Technologies: React Native, Expo

- Developed and maintained a mobile application using React Native and Expo.
- Built and enhanced interfaces optimized for different mobile devices.

FEATURED PROJECTS

ARKIA / ACTIVO DIGITAL: PropTech platform for real estate asset management, documentation, certificates, and financial and environmental analysis. Includes AI agents, RAG, n8n automations, and Supabase storage.

DAIOFF AND LEGAL RAG: LegalTech platform for managing cases, audits, documentation, tasks, and legal assistants, with APIs built using Remix, Prisma, and PostgreSQL and a RAG service using FastAPI, LangGraph, OpenAI, and Qdrant.

WEMATCH: SportsTech ecosystem with a mobile application, club management portal, admin panel, and backend services for bookings, payments, e-commerce, community, tournaments, leagues, wallet, and matchmaking.

PROFESSIONAL SKILLS

Technical leadership · Problem-solving · Critical thinking · Communication · Collaboration · Adaptability · Decision-making · Process optimization · Technical consulting

EDUCATION

Full Stack Web Developer - Henry Bootcamp | 2022 - 2023

React and TypeScript - Open Bootcamp | 2023

React Native - Coursera | 2024

LANGUAGES
