PROFESSIONAL PROFILE

Full Stack Developer with more than four years of experience building web and mobile applications. Hands-on experience in frontend, backend, databases, APIs, and product development with React, TypeScript, Node.js, React Native, Remix, Express, PostgreSQL, Supabase, and Prisma. Specialized in applied artificial intelligence integration using RAG, embeddings, vector stores, OpenAI, LangGraph, Qdrant, and workflow automation with n8n.

PROFESSIONAL EXPERIENCE

DAIOFF

Full Stack Developer | Remote

June 2023 — February 2026

- Developed the WeMatch mobile app with React Native and Expo, working on bookings, e-commerce, community, chat, tournaments, leagues, training, wallet, payments, and matchmaking.
- Contributed to the WeMatch web ecosystem, including the club manager, admin panel, backend, database, role-based authentication, inventory, catalogue, promotions, sales analytics, and delivery automation.
- Developed workflows and APIs for DAIOFF, a LegalTech platform for case management, audits, documents, tasks, and legal assistants, using Remix, Prisma, and PostgreSQL.
- Implemented and enhanced a legal RAG service with Python, FastAPI, LangGraph, OpenAI embeddings, and Qdrant, as well as its temporary integration with DAIOFF.
- Contributed to Activo Digital using React, TypeScript, Node.js, Express, and Supabase, working on document processing, financial analysis, file validation, and n8n workflows.
- Participated in financial and environmental RAG agents with Supabase Vector Store, as well as Jarvis AI and integrations with OpenAI, Stripe, Expo EAS, Docker, Fly.io, and GitHub Actions.

GRAVITAD

Frontend Developer

December 2022 — June 2023

- Developed the frontend of a cryptocurrency wallet with React.
- Implemented components and interfaces using TypeScript.
- Integrated APIs to query and manage information from the application.
- Developed responsive interfaces adapted to different devices.

PACKAR

Frontend Developer

February 2021 — June 2022

- Developed a mobile application with React Native.
- Used Expo to implement the application.
- Developed interfaces adapted to mobile devices.
- Maintained and enhanced the application interfaces.

FEATURED PROJECTS

DAIOFF AND LEGAL RAG

LegalTech platform for case management, audits, documentation, and legal assistants.

Architecture consisting of APIs with Remix, Prisma, and PostgreSQL, together with a RAG service developed with FastAPI, LangGraph, OpenAI embeddings, and Qdrant.

WEMATCH

SportsTech ecosystem consisting of a mobile app for players, a web-based club manager, an admin panel, and backend services. It integrates bookings, payments, e-commerce, community, chat, tournaments, leagues, wallet, and matchmaking.

ACTIVO DIGITAL

PropTech platform focused on real estate management, documentation, audits, and financial analysis. It includes document processing, automation with n8n, storage in Supabase, and financial and environmental RAG agents.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, Remix, Next.js, React Router, Redux, HTML, CSS, Tailwind CSS, Material UI, Bootstrap, Responsive Design.

Backend and APIs: Node.js, Express, Python, FastAPI, REST APIs, Prisma, Sequelize.

Databases: PostgreSQL, Supabase, MongoDB, SQLite.

Applied artificial intelligence: RAG, OpenAI API, Prompt Engineering, embeddings, LangGraph, Qdrant, Supabase Vector Store.

Mobile: React Native, Expo, Expo EAS.

Automation and tools: n8n, Docker, Git, GitHub Actions, Fly.io, Postman, Scrum, Agile.

EDUCATION

Full Stack Web Developer — Henry Bootcamp
2022 — 2023

React and TypeScript — Open Bootcamp
2023

React Native — Coursera
2024

LANGUAGES

Spanish: Native

English: A2
